

WAREFRAME

This is our **loading page**, and our **brand name is DailyRise**. It features a simple gradient background with the text "DailyRise" at the center, creating a clean and modern look.

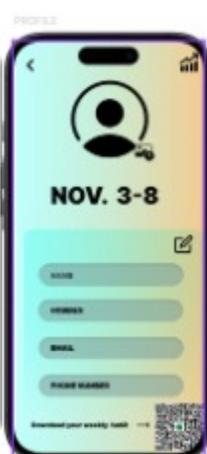

This is our **Login Page** for **DailyRise**. It has the same light blue to peach gradient background. At the center, there's a bold "Login" title, with input fields for **Email** and **Password**, plus options like **Forgot Password**, **Connect with Serial Number**, and **Create Account** at the bottom. Simple and clean design.

This is the **Home Page** of **DailyRise**. It shows a colorful gradient background like the other pages. At the top, there's a **calendar and chart icons**, followed by a **weekly tracker (Nov. 3-8)**. Below it, users can see their **habits** like *Study, Jogging, Biking, Chess, Volleyball, and Basketball* with stars marking completed days. At the bottom, a **graph** displays weekly progress statistics.

Core Features:

- Habit Creation
- Progress Tracking
- Calendar View
- Weekly Summary Report
- Reminders/Notifications
- Statistics Dashboard
- Edit/Delete Habit
- User-friendly Interface

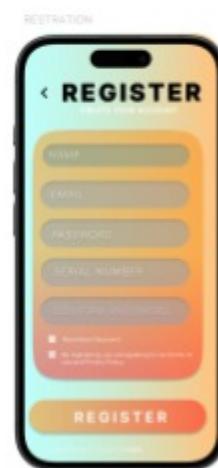

Our habit-tracking app's mobile profile page with a soft gradient background. At the top are icons for back, profile, and statistics. The center displays the date range "NOV. 3-8," followed by our editable fields for name, hobbies, email, and phone number, each inside rounded boxes with an edit icon. At the bottom, it includes a note saying "Download your weekly habit" along with a QR code for accessing our weekly habit report.

Our app's history page with a soft gradient background. At the top is a back icon and a refresh icon. Below it, a detailed habit history chart is displayed, showing dates, habit entries, and completion indicators. Under the chart, the screen shows the message "No more data result," indicating that there are no additional history records available.

Daily Rise app's Add Weekly Habit screen, where users can create and organize their weekly routines. Each habit is displayed in a clean list with options to edit or delete using the pencil and trash icons. A large plus button at the bottom allows users to add new habits anytime. The page features a soft gradient background and simple icons for navigation, including back, profile, and statistics. At the bottom, a colorful menu bar highlights different sections of the app, making it easy for users to track habits, view progress, and check their weekly reports.

Daily Rise, a weekly habit-tracking app designed to help users build consistency and personal growth. The screen features a soft gradient background with clearly labeled fields for name, email, password, serial number, and password confirmation. A checkbox allows users to remember their password, and a bright **REGISTER** button makes signing up simple. The clean, calming design reflects Daily Rise's focus on helping users start each week with clarity and motivation.

This is a forget-password screen from my Daily Rise habit-tracking app. It shows a soft gradient background with a clear title at the top, a barcode for the serial number, and two input fields for the user's email and serial number. At the bottom, there's a Connect button. The layout is simple and calm, matching the overall design of Daily Rise, which focuses on daily habits and weekly summaries.

The purpose of this screen is to guide new users of **Daily Rise** through creating their account, connect any required setup elements, and prepare them to start building and tracking their habits. It serves as the first step in onboarding, ensuring users are properly set up before they begin their weekly habit-tracking journey.
